

BUYING GUIDE

GODMORGON

Bathroom furniture

CARE

Wipe furniture clean with a cloth dampened in water or a non-abrasive detergent, then wipe dry with a clean cloth. All wet marks, should be dried off as soon as possible to stop moisture penetration.

The wash-basin and mixer tap should be wiped clean with a cloth dampened in water or a non-abrasive detergent.

Wash-basins in ceramic are resistant to most chemicals, except for strong acids and strong alkalis.

Wash-basins made of crushed marble should not come in contact with ammonia, acids, strong detergents, hair dye or chlorine.

SAFETY

Furniture must be fixed to the wall with the enclosed wall fastener. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home (not included). Consult your hardware shop to learn about fixing devices that suits your walls.

Secure that the walls in your bathroom can support the weight of the wash-stand, and if not, then use legs.

With the GODMORGON bathroom series you can create a well-organised bathroom that gives the whole family a calm start to the day – even if the bathroom is small. You can even get double wash-basins and mixer taps that save both time and water if you have a big family. There's also plenty of room for storage. Everything from drawers with removable dividers to shallow wall and mirrored cabinets that give you a good overview. And it's easy to buy, because the wash-stand and drawers come in one complete package. All you have to choose is the wash-basin and the mixer tap.

Read more in the guarantee brochure for GODMORGON.

HOW TO CHOOSE

1. Start planning your bathroom by thinking about the wall space you have available for a wash-stand and wash-basin, since this is the center of most bathroom activities. The GODMORGON series comprises wash-stands of different sizes and storage capacities.

After you have decided on the size of the wash-stand, you can choose between different colors and finishes and find the one that suits both your needs and style.

The wash-stands can be mounted to the wall with or without supporting legs.

The drawers in GODMORGON wash-stand are smooth running and pull out fully so you can easily see and reach what's inside. Pull-out stops prevent the drawers from being pulled out too far and falling, which is especially practical if you have children. Removable dividers inside the drawers let you organise all your small things.

2. IKEA wash-basins come in different sizes and materials. You can choose a single or double wash-basin, depending on your needs and space. The wash-basins are made of ceramic or crushed marble.

Ceramic wash-basins have a glazed finish and are easy to clean. They have excellent scratch resistance and are very durable.

Crushed marble is comprised mainly of crushed minerals with binding agents. Crushed marble wash-basins are smooth, durable and easy to clean.

All wash-basins come with a water trap and strainer. The water trap is flexible and can be connected to both washing machines and dish-washers.

3. You can find a wide selection of wash-basin mixer taps at IKEA. Choose your tap based on function and design. All taps come with a strainer kit, with the exception of OLSKÄR. All taps at IKEA have a water-saving device that uses 50% less water but ensures that the water flow feels the same.

GRANSKÄR, DANNSKÄR, DALSKÄR and ENSEN taps have a special function – a cold water start that helps you save energy. Usually, you turn on an ordinary tap by lifting the lever straight up, which releases both cold and hot water. But often, the hot water does not reach the entire way out and stops in the pipes. When you lift the lever straight up on a tap with a cold water start function, only cold water is released, which reduces any waste of hot water. To release the hot water, you lift the lever to the left.

4. Now it's time for you to choose what to put above and around your wash-basin: mirrors, mirror cabinets, high cabinets, high cabinets with mirror door, wall cabinets. The combination possibilities are endless. Make your choice based on your bathroom storage needs and space.

5. If you want a different expression in your bathroom you can choose to combine GODMORGON wash-stand with ALDERN counter-top and TÖRNVIKEN counter-top washbasin. IKEA bathroom counter-tops have been developed with special attention to quality, so they are water resistant, durable and will last a long time. They come in 5 different sizes that match GODMORGON wash-stands perfectly. TÖRNVIKEN counter-top wash-basin comes in round shape. Choose the look that suits you and your bathroom best.

6. Finally, you can complete your bathroom with furniture from the MOLGER, GRUNDTAL and KALKGRUND series, which make it possible to create smart and functional open storage solutions. They're designed in size to match GODMORGON so the look in your bathroom will be totally coordinated.

COMBINATIONS

Here are some suggestions of combinations without taps. Simply look out the wash-stand that has the style, size and color for you and fill it with the interior of your choice.

GODMORGON Black brown, white stained oak and walnut effect				
	60x58 cm	80x58 cm	100x58 cm	120x58 cm
