

BUYING GUIDE

Mattresses

Quilts, pillows and protectors 2016

Good night, everyone

When it comes to mattresses, one size doesn't fit all. People are built differently. People sleep differently. We understand this, which is why our range of mattresses offers you a wide choice of materials, support and price levels; everything you need to find a perfect match for you. Almost all of our mattresses and bases are covered by a 25-year guarantee against defects in materials and workmanship.

For your complete comfort

And because a good night's sleep depends on more than just the mattress, you'll also find the entire range of pillows, quilts, mattress and pillow protectors in this guide. In order to find what's best for your individual needs, we advise to try the mattress of your choice together with different pillows. Find the combination that best fits you, by actually lying down and trying them out together in the mattress studio.

A quilt in the comfort that fits your sleeping preferences adds into the complete comfort so you sleep well and wake up rested.

Love it or exchange it

And when you've chosen your mattress, take it home and have a good lie down. For up to 90 days if you like. If the chemistry isn't right between you, simply bring it back to the IKEA store and choose another.

When you get your mattress home

It's normal for new mattresses to feel a bit too firm, so you should allow one month for your body to get used to the mattress and for the mattress to get used to your body. New materials also have their own particular smell. We recommend airing the mattress to help eliminate any smell. If you buy a roll packed mattress, you can use it straight away but keep in mind that it takes 3-4 days of use for them to regain their shape.

Care and cleaning

Adding a mattress protector or mattress pad to your new mattress makes it more hygienic, as it is easy to remove and clean. Some of our mattresses have a washable cover. On those that don't, use upholstery cleaner to remove stains. Even the best mattresses become less comfortable with age and all mattresses accumulate dust and mites over the years. So we recommend that you change mattress every 8-10 years.

To find the right mattress for you,
you should think about:

1

Foam/latex or sprung?

We offer a variety of different mattresses. Deciding if you want a foam/latex or sprung mattress will help you narrow down your choice considerably.

2

Your budget

We have mattresses to fit every budget – from basic mattresses to mattresses made with high quality natural materials. But you can be sure that every one is designed to give you a good night's sleep.

3

How does it feel?

The most important thing when choosing a mattress is to have a good lie down. Try the mattress without thick jackets and coats and in the position you usually fall asleep in. That way, you can tell if the mattress is a good match for you.

Explanation of mattress comfort symbols

The symbols below are used to show the features of our comfort products.

Firm

Mattresses that provide firm support.

Medium Firm

Mattresses that provide medium firm support.

Natural materials

Natural materials like wool, cotton and sometimes natural latex and coconut fibre help air flow freely through the mattress and draw away moisture, so you won't get too warm or too cold.

Extra comfort filling

An extra top layer of soft filling that adds comfort.

Comfort zones

Give each part of your body the support it needs. Softer areas allow your shoulder and hips to sink more deeply into the mattress while firmer ones actively support your neck and lower back.

Pocket springs/mini pocket springs

Individually wrapped springs that work independently to closely follow your movements and the contours of your body.

Bonnell springs

A layer of springs that provides all-over support to ensure a restful night's sleep.

Latex

A soft and resilient natural material that offers personalised comfort by moulding to your body. You'll relax more fully as it distributes your body weight to relieve extra pressure and provide precise support.

Memory foam

A soft and resilient material that responds to your body temperature and moulds itself to the contours of your body. You'll relax more fully as it distributes your body weight to relieve pressure and provide optimum support and comfort.

High resilience foam

High quality foam that closely follows your movements to provide support and relieve extra pressure.

Foam

Gives you all-over support and comfort.

Roll packed

Makes it easier for you to handle the mattress and bring it home.

Wash 60 degrees

Removable and washable. Mites thrive in warm, dark, humid environments like beds. Wash fairly often to keep it fresh and clean.

25-year guarantee

Almost all of our mattresses and bases are covered by a 25-year guarantee against defects in materials and workmanship.

Sprung mattresses

Sprung mattresses distribute your weight evenly, so there's no extra pressure on any one part of your body. The open spring construction helps air flow through the mattress, so you won't get too warm while you sleep. You can get the comfort level that's right for you with a mattress pad and a slatted bed base or mattress base.

JÖMNA sprung mattress, light grey

Foam and latex mattresses

Soft and resilient, foam and latex mattresses provide support by moulding to the shape of your body and distributing your weight evenly. Because there's no extra pressure on any part of your body, they facilitates blood circulation and help you fully relax. Foam mattresses also absorb the shock of movement, making them a great choice if you have a partner that tosses and turns at night. Their flexibility makes them a great fit for adjustable slatted bed bases.

MOSHULT foam mattress, white

-  **Foam**
-  **Wash 60 degrees**
-  **Roll packed**

Mattress Protectors

A mattress protector prolongs the life of your mattress and mattress pad against stains and dirt. It is easy to remove and clean. Mattress protectors with filling offer extra comfort and softness and absorbs moisture and draws it away. Some models help your mattress to stay dry and clean because a waterproof layer prevents any liquid from passing through.

ÄNGSVIDE mattress protector

Care instructions

- You can prolong the life of your mattress with a mattress protector against stains and dirt.
- Elastic ribbon in each corner to keep the mattress protector in place.
- A good choice if you are allergic to dust mites since the protector is machine-washable at 60°C, a temperature that kills dust mites.

Material

Filling: 100% polyester
Fabric: 52% polyester, 48% cotton
Backside: 100% polypropylene

Slatted bed bases

Combined with a bed frame, slatted bed-bases can be used as a base for spring, foam and latex mattresses. They help your mattress last longer and stay comfortable by absorbing most of the stress and weight placed on your bed. You can adjust the slats in some bases to be more or less firm, and some can be adjusted at the foot and head, allowing you to sit up and read or watch television or keep your legs elevated.

LURÖY slatted bed base.

- Extend the life of your mattress and get extra support with 17 wooden slats in the bed base.

Quilts, pillows and pillow protectors

Quilts, pillows and protectors are an important part of the complete sleep comfort. The pillow that feels best for you together with your favorite mattress is the base for a good night sleep. Adding on a pillow protector to protect your pillow, keep it fresh and prolong its life length is easy to be done. A quilt in your preferred material and warmth rate is the last element which makes you feel comfy in bed, sleep well and wake up refreshed.

In order to find the right quilt or pillow for you, it is good to consider the following:

1

Natural or man-made filling material?

We offer a wide choice of quilts and pillows in different material choices: Natural materials like down and feathers and man-made materials like polyester, lyocell and memory foam. Considering which material is best for your comfort needs will help you to narrow down your choice considerably.

2

Which quality?

We have quilts and pillows in different qualities to fit individual needs and budgets. These qualities are determined by the materials they are made of and the detail of workmanship. For sure, no matter your choice, they are all designed to give you the best possible comfort.

3

A cooler or a warmer quilt?

A softer or a firmer pillow?

Daha sert ve daha yumuşak konfor düzeyinde yastıklarımız mevcut. Size en uygun yastığı bulabilmek için yatakla birlikte deneme yapmanızı tavsiye ederiz. Küçük çocuklar yumuşak yastıkla rahat eder. Büyük çocuklar için, kendi ihtiyaçlarına uygun yastık seçmek en doğrusudur. Bebek yastıklarını ise IKEA Çocuk bölümünde bulabilirsiniz. Yastık koruyucu ekleyerek, yastığının uzun süre yeni ve temiz kalmasını sağlayabilirsiniz.

How to care for your quilts and pillows?

General advice for all materials

- Roll packed quilts and pillows which have been compressed for transport, may take a few days to regain their correct shape and fluffiness.
- Mites thrive in damp, warm and dark environments. Therefore, when you wake up in the morning, air your quilts and pillows well so remaining moisture can evaporate before putting them back on the bed.
- Moreover, you can wash all IKEA quilts and pillows at 60°C (apart from memory foam pillows, where only the cover can be washed), the temperature at which mites die. To keep your quilts and pillows free from mites and dirt, carefully follow the washing instructions.

- Air your quilts and pillows often so they will be free from dust and stay fresh and dry.
- You can prolong the life of your pillows with a pillow protector which protects them from stains and dirt.

Additional advice for natural material

- Down and feathers have a natural smell which will disappear once you have taken them out of the package and have aired them for some time.
- For down and feather quilts and pillows you should only use one third of the normal amount of detergent and wash them separately.

- After washing, dry your natural quilts and pillows in the tumble dryer without delay until the filling is completely dry. You can place some tennis balls in the dryer which will keep the filling moving and ensure more efficient drying. Like that your quilts and pillows will regain their fluffiness and dry more quickly. The balls should of course not shed colour.

Additional advice for man-made material

- Man-made quilts and pillows are very easy to care for and can be washed often. They also dry relatively quickly.

Memory foam

- The material may have a "factory smell" as a result of being sealed in airtight packaging. This will disappear once you open the package and leave the pillow to air before using it.
- Please consider that it may take some time to get used to this type of pillow, due to the unique properties of the material.

- A pillow with memory foam filling moulds to your head and neck. This helps your muscles relax and, consequently, you will move less and sleep better.
- The removable cover can be washed at 60°C. The filling is not washable; please follow the care instructions on the label.

Explanation of quilt and pillow comfort symbols

The symbols below are used to show the features of our comfort products.

Firmer

Depicts pillows with more filling if you like to sleep on a firmer pillow.

Cooler

Depicts cooler and thinner quilts with less filling for you who often feel warm.

Softer

Depicts pillows with less filling if you like to sleep on a softer pillow.

Warmer

Depicts warmer quilts with more filling for you who feels neither too warm or too cold.

Extra warm

Depicts extra thick and warm quilts with a generous amount of filling for you who often feels cold at night.

Care instruction symbols

Machine wash hot 60 degrees

The product is machine-washable at 60 degrees, the temperature that kills dust mites.

Tumble dry, normal temperature.

Do not iron.

Do not wash.

Tumble dry, low temperature.

Iron, medium temperature.

Do not bleach.

Do not tumble dry.

Dry clean, normal cycle.

Do not dry clean.

Man-made pillows

The filling materials used for man-made pillows are polyester, lyocell and memory foam. Man-made pillows are very easy to care for. They can be machine-washed often at 60° C (apart from memory foam pillows, where only the cover can be washed), which makes them a good choice for people with dust mite allergies. Moreover, they dry quickly after being washed. Some pillows have a microfiber filling which is lightweight and ultra-soft like down. Some are made of memory foam which gives you extra support by moulding to the contours of your body. Some of our pillows contain lyocell, a cellulose fibre derived from wood pulp. In addition to sharing the same positive properties in the wash as polyester pillows, lyocell breathes well and absorbs moisture and draws it away.

AXAG pillows

Care instructions

- Easy-care pillow with a brushed microfibre fabric for a soft feel.
- A good choice if you are allergic to dust mites since the quilt is machine-washable at 60°C, a temperature that kills dust mites.

Natural pillows

Duck down and feathers are used in the filling of natural pillows. These fillings are soft and comfortable for your head. They breathe and are good at absorbing moisture. Down is soft, fluffy and light. Feathers are resilient and supportive. This means that the more down a pillows contains, the softer and fluffier it is. These pillows can be washed at 60° C, but not as often as man-made pillows. You can choose from softer and firmer pillows.

JORDRÖK pillows

Care instructions

- Formable pillow that gives you good support thanks to the large proportion of feathers in the filling which also absorbs and transports moisture away.
- You get a dry and evenly tempered sleeping environment since both the filling and the cotton cover breathe well, which helps air to circulate.
- The pillow is machine-washable at 60°C, a temperature that kills dust mites.
- 252 thread count.
- May be completed with a pillow protector which protects the pillow from stains and dirt.

Pillow protectors

Adding a pillow protector helps you to keep your pillow fresh and clean. It also prolongs the life length of your pillow as you rather wash the protector frequently instead of the pillow. Pillow protectors are easy to remove and put back on again and take up less space in the washing machine. There are different qualities of protectors available to suit your comfort needs and budget.

ÄNGSVIDE pillow protector

Care instructions

- You can prolong the life of your pillow with a pillow protector against stains and dirt.

Man-made quilts

The filling material used for man-made quilts are polyester and lyocell fibres. Man-made quilts are very easy to care for. They can be machine-washed often at 60° C, which makes them a good choice for people with dust mite allergies. Moreover, they dry quickly after being washed. Some quilts have a microfiber filling which is light-weight and ultra-soft like down. Some contain lyocell, a cellulose fibre derived from wood pulp. Lyocell breathes extremely well and is excellent at absorbing and drawing moisture away - in addition to sharing the same positive properties in the wash as polyester fibres. You can choose from cooler and warmer quilts. An extra warm quilt is available during colder months.

TILKÖRT quilts

Care instructions

- Easy-care quilt that feels soft and comfortable against your skin as the fabric is brushed microfibre.
- A good choice if you are allergic to dust mites since the quilt is machine-washable at 60°C, a temperature that kills dust mites.
- 176 thread count.

Material

Filling: 100% polyester
Fabric: 100% polyester

Cooler

If you often feel warm, this cooler and thinner quilt with less filling is a good choice.

Natural quilts

Duck down and feathers are used in the filling of natural quilts. These fillings are natural insulators. They breathe and are good at absorbing moisture. Down is soft, fluffy and light. Feathers are resilient and heavier. This means that the more down a quilt contains, the softer and more lightweight it is. Natural quilts can be washed at 60° C, but not as often as man-made quilts. You can choose from cooler and warmer quilts. An extra warm quilt is available during colder months.

HÖNSBÄR quilts

Care instructions

- Filling with a large proportion of feathers transports moisture away and keeps you dry all night.
- You get a dry and evenly tempered sleeping environment since both the filling and the cotton cover breathe well, which helps air to circulate.
- The warmth is distributed evenly, with no cold spots, because the quilt is sewn in boxes to keep the filling in place.
- The quilt is machine-washable at 60°C, a temperature that kills dust mites.
- 252 thread count.

Material

Filling: 90% duck feathers/ 10% duck down
Fabric: 100% cotton
