

BUYING GUIDE

Professional office

2016

Furniture for every office

We have furniture for every kind of office – from the small to the fully staffed. And everything to make a modern company run smoothly and efficiently, from desks, storage and chairs, down to lamps and desk accessories. Choose between desks of different sizes and shapes, comfortable work chairs that support your back – and finish by creating a unique storage solution for your needs. At IKEA our office furniture has great design, smart functions and high quality. And it's been tested for office use so you can be sure it can take tough days at work – year after year.

Do it yourself or let us help

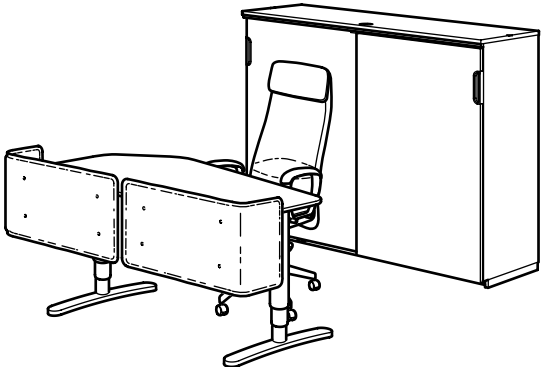

Just because you can do everything yourself, doesn't mean you have to. Let us help make your office solution a reality with our service offers like picking, home delivery, assembly, financing and more. Read more on the back page of this guide or at www.IKEA.com.tr/en

GOOD TO KNOW

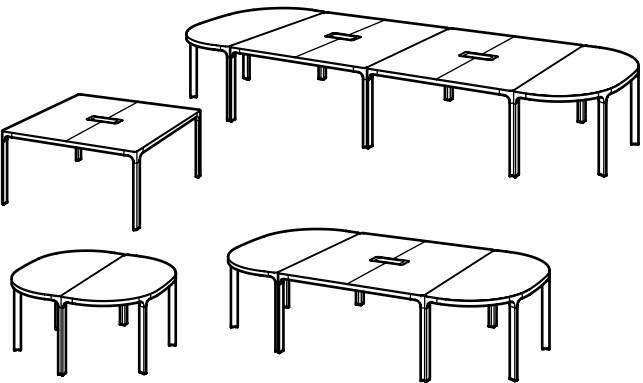

Versatile screens for many needs.

Our screens serve different needs. You can use them to create a pleasant and welcoming reception area, to provide privacy in an open plan office or to reduce sound. Or all these things. The screens come in two heights, 120 cm and 55 cm. The 120 cm screen stands freely on the floor. The 55 cm screen attaches easily to BEKANT table top and can be mounted at two different heights, according to your needs.

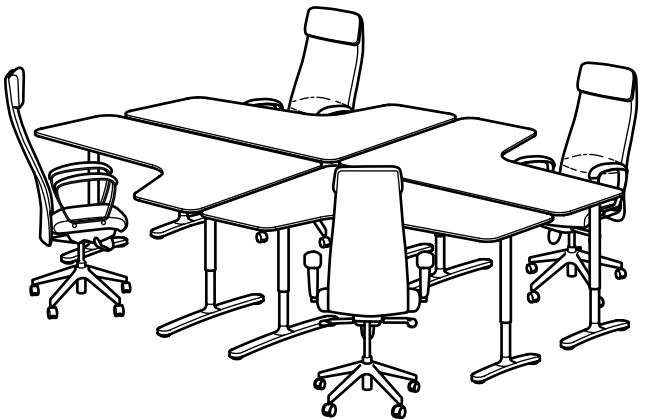

Lots of room for storage on less space.

GALANT cabinet with sliding doors has plenty of room for all the binders and files you need near your desk – but takes less space. The doors slide instead of swinging out, so you don't waste precious space on swing room for the doors.

Combine to create your own conference table.

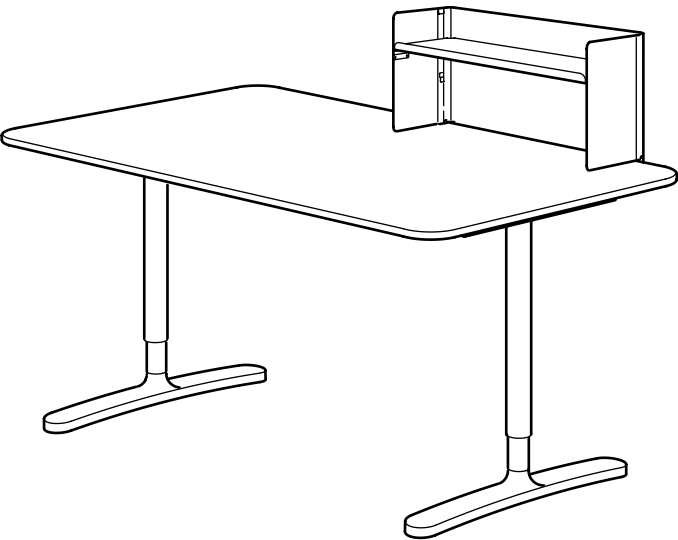

We have conference tables in two sizes – 140×140 cm and 140×70 half round. The half round table seats 3 and the 140×140 cm table seats 8. You can use them individually or combine them to seat as many people as you need. And simply rearrange tables when your needs change. Attachment clips to connect the tables are included with the frames.

More desks on less space.

By placing desks back to back you can save space. You can do this with desks of different shapes and sizes. For instance, straight desks back to back or four corner desks with their corners meeting at the centre. There are many possibilities. This back-to-back desk arrangement saves time and makes it easier for colleagues that work in teams to communicate and collaborate. You can also choose to put screens between the desks to create more individual and private workspaces.

DESKS AND CONFERENCE TABLES

Desks for many different needs

BEKANT desks come in many shapes and sizes, so it's easy to find one that perfectly suits your needs. You can choose between everything from a small desk to a corner desk with a generous depth that makes it perfect for computer work. There's even a 5-sided desk with a space for visitors. A net for cable management is included and helps you keep the area around your desk free of messy cables.

Tested for tough treatment

The BEKANT desk series have been tested according to the highest standards for professional office use (EN 527, ANSI/BIFMA X:5.5 for desks and EN14074, EN1730 and ANSI/BIFMA X:5.5 for conference tables) and meets our strict standards for quality and durability.

That means that the series has undergone a number of tough tests. And this is how we know that all the desks are durable and can take heavy loads and that the surfaces resist both scratches and strains. This makes BEKANT a reliable workmate that lives up to your high demands and can withstand hard work – day after day, year after year.

Free your creativity

BEKANT conference tables have a built-in solution for cable management. This means that you and your colleagues can use computers and projectors without lots of loose cables tangling around your coffee cups and papers. Focus on the right things releases creativity.

Design

Karl Malmvall, Eva Lilja Löwenhielm

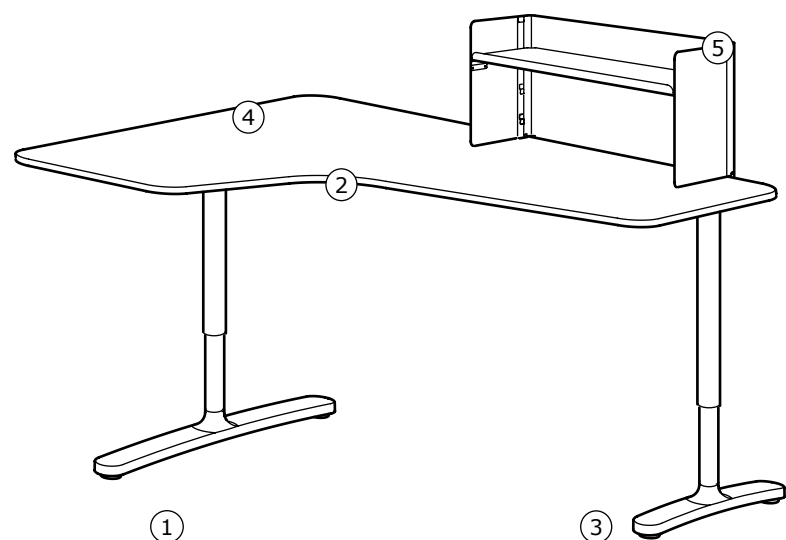

Care instructions

Wipe clean with a mild soapy solution.

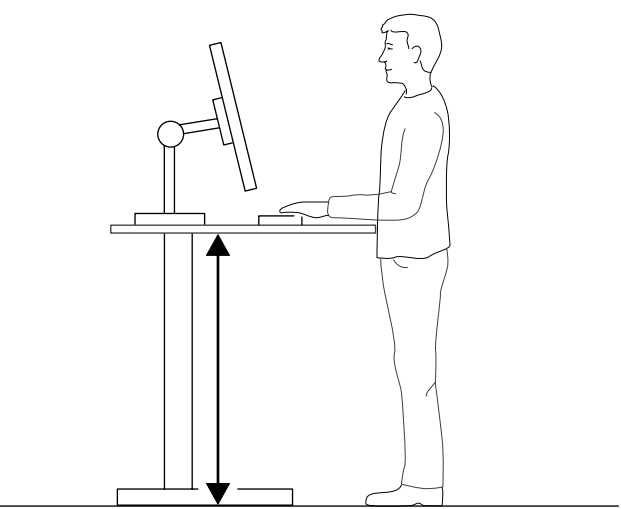

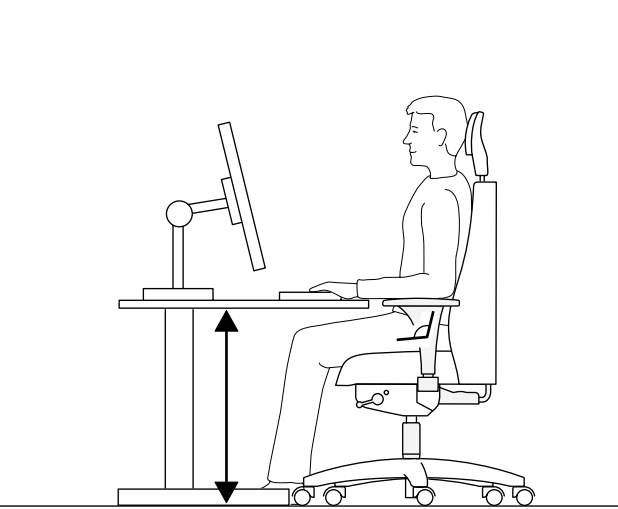

Read more in the guarantee brochure.

GOOD TO KNOW

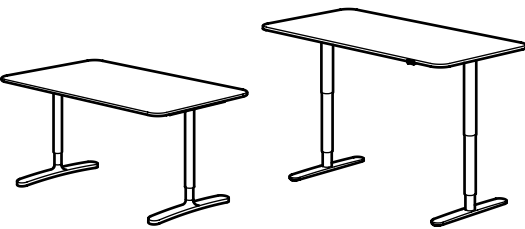

- 1. Height adjustable legs allow you to assemble your desk at a height that suits you. If you have the sit/stand underframe you can raise and lower the desk with the touch of a button.
- 2. The curved shape of the table top gives support to your wrists and forearms when typing.
- 3. It's easy to keep your desk neat and tidy with the cable management net under the table top.

- 4. Surfaces in veneer and melamine foil are hardwearing, stain resistant and easy to keep clean.
- 5. BEKANT desk top shelf creates extra storage space and frees space on your desk top.

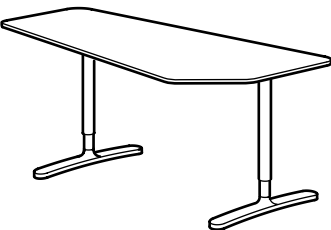

With BEKANT sit/stand underframe you can raise and lower your desk by the simple touch of a button. That helps you to change working positions often and keeps your body active. The lowest position for sitting is 65 cm and the highest for standing is 125 cm.

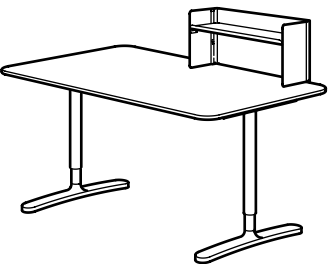

COMBINATIONS

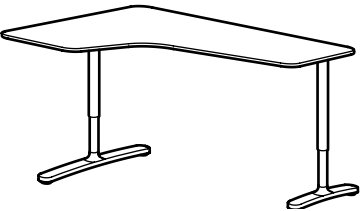

Adjustable in height. With our sit/stand desk you can adjust the height of the table top electrically from 65 to 125 cm to ensure an ergonomic working position. Changing positions between sitting and standing helps you move your body so you both feel and work better.
(160×80 cm) in white with an sit/stand underframe in black or white
(160×80 cm) in black-brown, birch, grey or oak with an sit/stand underframe in black or white

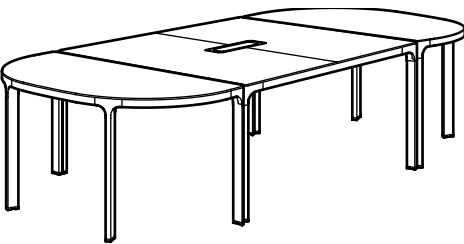

5-sided desk. Perfect if you have visitors often, as you can have your own work area on the left and plenty of room for a visitor on the right.
(160×80 cm) in white with an underframe in black or white
(160×80 cm) in black-brown, birch, grey or oak with an underframe in black or white

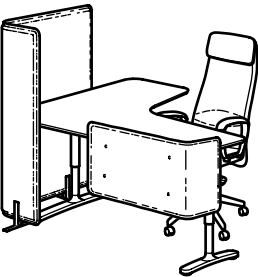

Within easy reach. BEKANT desk top shelf creates extra storage space and frees space on your desk top.
(120×80 cm) in white with an underframe in black or white
(120×80 cm) in black-brown, birch, grey or oak with an underframe in black or white

Ergonomic workspace. The contoured table top provides support to the wrists and forearms when writing, relieving strain on your shoulders during long working hours.
(160×110 cm) in white with an underframe in black or white
(160×110 cm) in black-brown, birch, grey or oak with an underframe in black or white

Meeting place. The BEKANT conference table has a built-in solution for cable management; keep computers and projector cables organised and close at hand at the table.
(280×140 cm) in white with an underframe in black or white
(280×140 cm) in black-brown, birch, grey or oak with an underframe in black or white

Create a private workspace. The screen helps to increase concentration and productivity by providing privacy and absorbing sound.

STORAGE

Professional and personal

The GALANT storage series has been specially developed to suit all types of professional offices – both when it comes to smart functions and high quality. The series also makes it easy to create a personal solution, according to your needs. You can choose, for example, between different height and widths, storage with only drawers or combined with file storage and drawer units. You can also use many of the pieces in the series as room dividers – a good way to create a calm corner to work in.

All storage at the office

Everything from binders and paper to printers and computers – not to mention cords and cables. GALANT series solves all of the most important and usual storage needs at the office. All units have built-in cable management and ventilation to ensure there's no risk of your electronic equipment overheating. And many of the pieces are finished on the back (except GALANT file cabinet 51×120 and GALANT drawer unit with drop-file storage 80×80) – so you can place them in the middle of the room if it suits you and makes your work more efficient

Tested for a long, hard life at work

All GALANT storage units have been tested for office use and meets the requirements for safety, durability and stability set forth in the following standards: EN 14073 and ANSI/BIFMA x5.9.

That means that it has undergone a number of tough tests. For example, we've made sure that the surfaces can withstand heavy wear and tear, and that all drawers and sliding doors will run smoothly even after a long time. Also, many of the pieces in the series are constructed to be able to be used as room dividers. All so that you can trust that GALANT will be able to take hard work.

Design

Karl Malmvall, Eva Lilja Löwenhielm

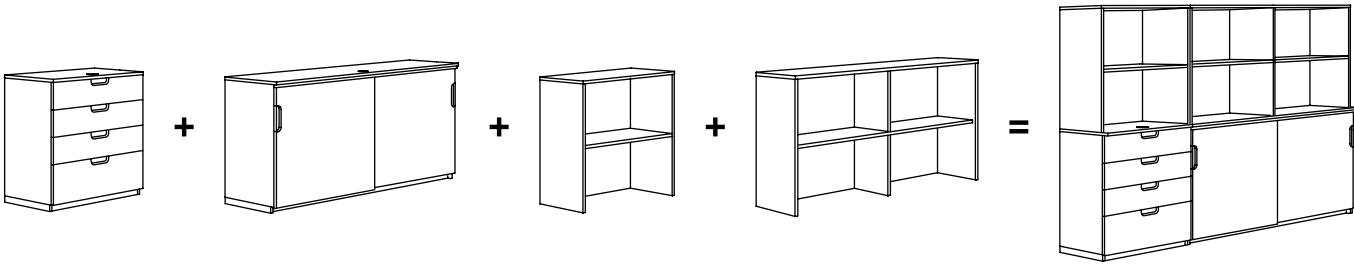

Care instructions

Wipe clean with a mild soapy solution.

Read more in the guarantee brochure.

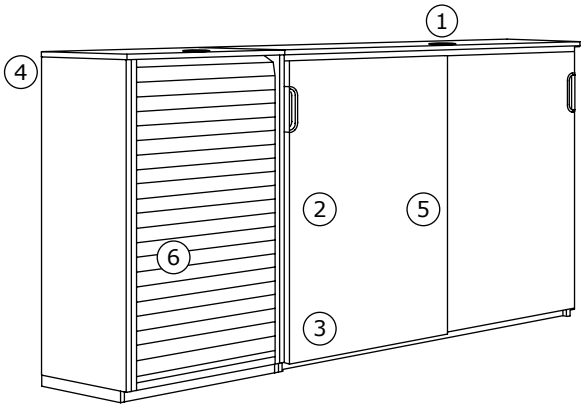

HOW TO COMBINE

With GALANT you can create the storage solution you need – with the appearance you like. Choose, for example, a cabinet with sliding doors, a drawer unit with spacious drawers and

complement with practical add-on units. A simple way to get effective storage.

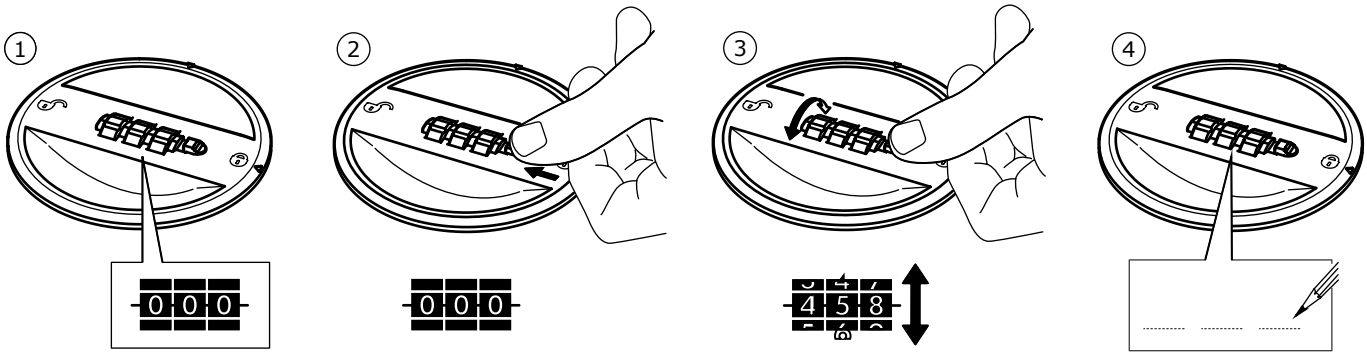

GOOD TO KNOW

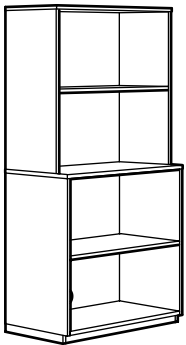

- 1. Combination lock; easy to choose your own code for safe storage of papers and office accessories.
- 2. Space behind the shelves makes it easy to collect and lead cords and cables to the cord outlet on the back.
- 3. Adjustable feet make storage units stand steady also on uneven floors.

- 4. Most pieces are also finished on the back; suitable for use in the middle of a room.
- 5. Sliding doors; save space when open. Doors with integrated dampers for silent and gentle closing.
- 6. Roll-front; saves space when open.

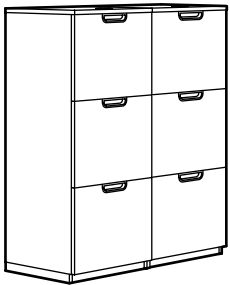

GOOD TO KNOW

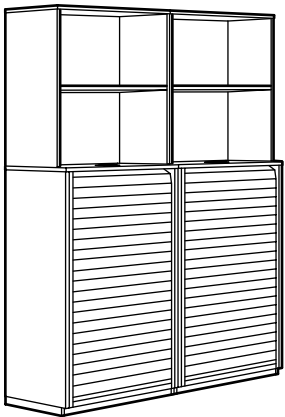

COMBINATIONS

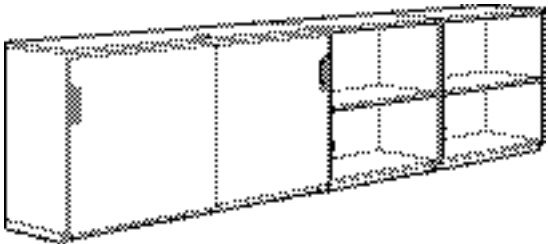

A simple unit can be enough storage for a limited space or the foundation for a larger storage solution if your needs change. Use an add-on unit to build vertically; makes optimal use of wall space and saves space on the floor. Overall size: 80×45×160 cm.

Maximum storage. 2 file cabinets, each with 3 drawers for drop files; make it easy to sort and store important papers. Overall size: 100×45×120 cm.

Combine open and closed storage; hide or display your things according to your needs. Roll-front; saves space when open. Overall size: 160×45×200 cm.

A complete storage solution with both open and closed storage. Overall size storage: 320×45×80 cm.

ALL PARTS

WORK CHAIRS

Work chairs that make a perfect match

We have comfortable work chairs for all your needs – swivel chairs for your desk, visitor’s chairs and conference chairs. And in many different styles, colours and materials, so it’s easy to find the perfect match for both you – and your office décor.

Our swivel chairs have features from simple to advanced. How to choose? Start by thinking about what kind activities you will do and how much time you will spend sitting in the chair. For fulltime work, you might need one with more adjustable features to help you vary sitting positions. Do you have special needs, e.g. want relief for your back, support for your arms and shoulders? What style do you like? Let your answers to these questions guide you to the perfect work chair for you.

Can take a tough day at work

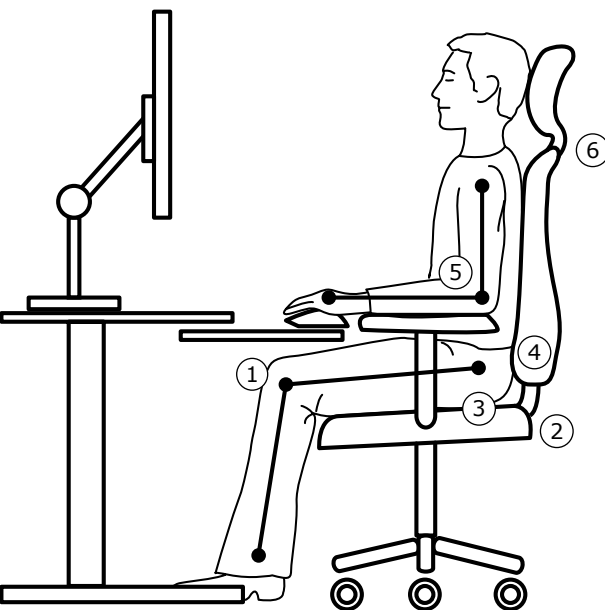

Our professional chairs have been tested for office use and meets the requirements for safety, durability and stability set forth in the following standards: EN1335-2 and ANSI/BIFMA x5.1 for desk chairs and EN1022, EN15373 and ANSI/BIFMA x5.1 for conference chairs.

This means we have put the chairs through many different tests and tough challenges. For example, we sized the chair according to both European and American measurement requirements, subjected it to heavy loads and tested the endurance of each part – up to 300,000 times. We did all this to make sure it would be comfortable to sit in, safe to use and capable of enduring fulltime deskwork – for many years.

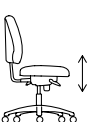

Read more in the guarantee brochures for MARKUS and VOLMAR swivel chairs.

GOOD TO KNOW

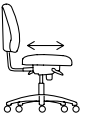

- 1. If you sit at the right height, both your back and legs get the support they need. Your legs should be at a right angle when your feet are flat on the floor. Do you share the chair with other people? With a height adjustable seat, people of all heights can sit comfortably.
- 2. It doesn’t matter if you’re short or tall. With an adjustable seat depth or a height adjustable backrest you can try out different depths and heights and get exactly the support your legs and back need.
- 3. A chair with tilt function makes it easy to change sitting position, regardless of whether the tilt function is in the seat or the backrest – or in both places. Locked position or comfortable resistance? Adjust the tilt tension to suit your movements and your weight. The right setting increases both stability and the support you get when you tilt – forward or backwards.

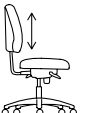

- 4. The small of the back is where we usually feel the first onset of tiredness. A chair with built-in lumbar support gives you support and relieves pressure on your back.
- 5. Armrests reduce the strain on both your arms and shoulders. If the armrests are adjustable, it’s even easier to reduce the strain – regardless of how tall or short you are. Have the armrests at approximately the same height as the desk top for maximum support. However, the armrests should not prevent the chair from being drawn close to the desk, nor restrict natural movements.
- 6. If you’ve been sitting at your desk for some time, it may feel nice to lean back and change your position for a moment. With a headrest on your chair, your head and neck also get a little well-deserved relaxation.

Height adjustable seat for a comfortable sitting posture regardless of body height.

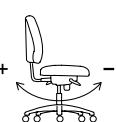

Adjustable seat depth; easy to adapt for increased support to your thighs and back.

Height adjustable backrest; gives lumbar support and relieves strain on your back.

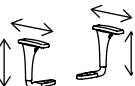

Lockable tilt function for increased stability in different sitting positions.

Adjustable tilt tension; increase or decrease the resistance to suit your movements and weight.

Synchronised tilt function in seat and backrest; the chair follows your movements when you lean forward or back.

Height and depth adjustable armrests; adjust to relieve strain on your arms and shoulders even more.

ALL PARTS

CHAIR ACCESSORIES

KOLON floor protector. 120x100 cm. Suitable for most types of floors and flat-woven rugs. Not suitable for cork floors or heated wooden floors. If the floor protector is left lying on the floor for a long period a vacuum may form and cause damage to your floor. Therefore, lift the floor protector at regular intervals for ventilation.

448.811.00

FIXA stick-on floor protectors set of 20. Protects the underlying surface against wear and scratching.
