Sofa for everyone

It would be pretty strange if everyone wanted the same sofa, wouldn't it? That's exactly why SÖDERHAMN sofa series is based on durable and comfortable modules that you can combine any way you like. Are you looking for a big sofa or a small one? Do you want a cosy corner to curl up in? Or maybe it's a sofa-bed you need? With SÖDERHAMN you're free to create the combination that suits you – the possibilities are endless.

Comfortable in a new way

With SÖDERHAMN we wanted to use materials efficiently and make a really comfortable sofa that also has a light, airy design. That's why we did things a little differently than usual and put elastic webbing in the bottom of the sofa. It works together with the seat cushions to give a soft springy feeling. To this we added a generous seat depth and loose back cushions, so you can always arrange your sofa so it's perfectly comfortable for you.

Sustainable all the way

There are several thick, hard-wearing and washable covers you can choose from for your SÖDERHAMN sofa – all with different styles and feelings. The sofa is also packed in an efficient way that makes it easy to transport and carry into your home. And if you should want to discard it sometime in the future, all the materials can be separated so they're easy to recycle. In other words – it's a sofa that is smart, resource efficient and sustainable in every possible way.

COMBINATIONS

Adapted to suit you. You can use a one-seat section just as it is, or combine it with additional one-seat sections and other parts from the series – in any way that suits you.

Overall size: 279×99×83 cm

SAMSTA dark grey cover combination.

Alone or together. Add armrests and the one-seat section becomes a comfortable armchair. If you want more seating, you can combine it with other parts from the series.

Overall size: 105×99×83 cm

SAMSTA dark grey cover combination.

Really stretch out. With a three-seat section and a chaise longue you get a sofa that has plenty of room – and is comfortable to really stretch out in. You can place the chaise longue on either side you like. And you can always change or add on with more parts from the series.

Overall size: 291×99/151×83 cm

SAMSTA dark grey cover combination.

Curl up in a corner. Corner sofas have a lot of room and are an efficient way of using space. If you want different lengths on the sides, you can combine, for example, a corner section, a three-seat section, a one-seat section and armrests.

Overall size: 291×99/198×83 cm

SAMSTA dark grey cover combination.

Plenty of room. If you need comfortable seating for many people you can combine a corner section with two three seat sections.

Overall size: 291×291/99×83 cm

SAMSTA dark grey cover combination.

Our fabrics have been tested

At IKEA we test the fabric covers on our sofas and armchairs so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home – and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

Durable in different ways

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibres can withstand abrasion better than fabrics with only natural fibers. Yarn-dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.

	Washing instructions	Resistance to abrasion (cycles)	Light fastness (0-6)
ISEFALL: Heavy and highly durable fabric with a slight shine and soft feel.	Dry clean	35.000	5
SAMSTA: Hardwearing micro fibre fabric with a sanded look and a soft feel.	Machine washable at 30°C.	40.000	5
REPLÖSA: Heavy, hard-wearing cotton/polyester twill. Twill is a weaving technique that makes the fabric strong and gives it a lively texture.	Dry clean	20.000	5

* 1 lumbar cushion is included.

** 2 lumbar cushions are included.
