

# Children's beds

## SAFETY

All our children's products are tested and subjected to a risk analysis to ensure they comply with the most rigorous criteria in every country where IKEA products are sold.

For your child's safety and comfort, VYSSA mattresses are: easy to keep fresh and clean, breathable and firm. They are attached with childproof zipper.

## Time for a bed for "big kids"?

Children are constantly on the move, learning new things, experimenting and playing. That's why they need a safe place where they can rest and sleep while they process all the impressions from an active day. At this age they've probably outgrown their cot, and a bed for adults seems much too big. This is when a children's bed is perfect. Just the right size to feel both snug, cosy and safe.

## Let your needs, space and taste help you choose

Think about the kind of bed that would suit you and your child best. If your child usually falls out of bed, it could be wise to choose a smaller bed with a guardrail. If you want to be able to extend the bed as your child grows, an extendable bed is perfect. Do you have limited space? Then maybe a loft bed is the way to go, with room for a sofa or a desk underneath. If your child would rather sleep closer to the floor, we have day-beds with an extra bed for a friend or an extra storage space for toys. We also have bunk beds that you can add on to with an extra bed, so 3 people can sleep on the same space. In short, we have beds for all needs, spaces and tastes.

## EXTENDABLE BEDS 3-7 YEARS

# HOW TO CHOOSE

## 1. Choose your materials.

Choose between spring, latex or foam. All materials are safe and hygienic of course, and both sides of the mattress can be slept on, which prolongs the life of the mattress. If you are unsure which to choose ask what type of mattress do you prefer to sleep on?

**Spring:** VYSSA spring mattresses are made with either pocket springs or Bonell springs. The spring construction allows air to flow freely, promoting good air circulation and a favourable sleeping climate.

**Latex:** We use only synthetic latex in VYSSA latex mattresses, because children may be allergic to natural latex. Synthetic latex is extremely durable and provides additional pressure relief for extra comfort and a hygienic sleeping environment for your child.

**Foam:** All VYSSA foam mattresses use quality polyurethane or high resilience foam, which is well fitting, durable and has pressure-relieving qualities that provide your growing child with good support and a favourable sleeping climate. Both sides of our foam mattresses may be slept on, which prolongs their use.

**Covers:** All VYSSA covers are removable and machine-washable to create a hygienic sleeping environment for your child. They are also well ventilated to allow for better air circulation. All our covers are soft against the child's skin.

## 2. Identify individual needs

### Size

Are you buying a mattress for a children's bed or an extendable bed? All VYSSA mattresses are available in both sizes. As the extendable beds "grows" with the child in three steps, the mattress comes in three pieces; just add on a part when you extend the bed.

- **Time:** How many years do you think your child will use the mattress? If you want to use the same mattress from the early years and well into childhood, a thicker and more durable mattress will provide better support as the child grows.
- **Air circulation:** All VYSSA children's mattresses promote good air circulation, thanks to materials like egg-carton foam, pocket spring construction or latex.
- **Pressure relief:** All VYSSA mattresses provide some pressure relief, because they are made with materials like pocket springs, high resilience foam or latex.

## 3. Choose your mattress

On the following pages you will find all of our children's mattresses on offer, along with detailed facts for each.

## HOW TO CHOOSE QUILTS AND PILLOWS

To find the right quilt and pillow for your child, it is good to follow these recommendations:

### 1. Man-made filling for easy care and quick dry.

Man-made pillows and quilts are easier to take care of than natural counterparts, as they can be machine-washed often at 60° C, and after being washed they dry quickly. This makes them a good choice for children with house dust mite allergies.

### 2. Cooler quilt for a comfortable sleep.

We have quilts in different qualities to fit individual needs and budgets. The different warmth rates make it easy to vary the quilts depending on season. Cooler quilts are recommended to children as they are usually warmer while they sleep compared to adults. For sure, no matter your choice, they are all designed to give your child the best possible comfort.

### 3. Softer pillow for suitable support.

We offer pillows in a softer and a firmer version. Small children are most comfortable with softer pillows. For older children, it's best to choose a pillow according to their individual preferences. You can find pillows for babies at Children's IKEA.

Adding on a pillow protector is an easy way to keep your pillow clean and fresh so it lasts longer.

### 4. Protector for longer product life length.

Adding on a mattress protector to your child's mattress is an easy way of keeping it fresh, which prolongs the life length. GÖKÄRT mattress protector is waterproof, which prevents liquid from passing through.
