

Internal IKEA information:

This is a communicative 3D model which includes all the visible parts of the product.

The 3D model only shows the geometry of the product and its parts. No surface materials.

The 3D model is created on article level.

You can use this 3D model for measurements.

The Home Furnishing Business (HFB) at IKEA of Sweden owns the 3D model.

Information for quality assurance:

This is a high detail model:

Please note that the 3D model on the next page of this PDF is a "heavy 3D model".

This is the full version of the 3D model and includes all details.

We recommend you to shut down other programs on your computer when opening this file, and to use a network cable.

If you have problems opening this file for quality assurance, or if you have any questions, please contact the Product Communication department at IKEA Communications (ICOM): 3DpdfQA@ikea.com
